Scholle Packaging Names Chad Mueller Chief Technology Officer 7/26/2005

[Scholle Packaging](#) has named Chad Mueller as Chief Technology Officer. Mueller will lead Scholle's continuing efforts to develop and deliver innovative flexible packaging technology worldwide through the establishment of a Global Packaging Technology Center of Excellence in its Northlake, Illinois, USA, facility.

Mueller holds Bachelor, Masters and Ph.D. degrees from Case Western Reserve University in Macromolecular Science and Engineering, and to date has nine flexible packaging materials-related patents. Prior to joining Scholle, he was Director, Materials Research and Characterization for Alcan Packaging, where he led a group of scientists and engineers focused on innovation through the development of new materials and process technologies. He is a recognized expert and technical resource in the flexible packaging industry and a frequent contributor of articles and presentations at industry forums.

According to Leon Gianneschi, president of Scholle Packaging, "Chad and his team are leading our ongoing efforts to offer state-of-the-art technology in the area of bag-in-box films and fitments and to continue to deliver on Scholle's 50-year history of innovation in the packaging industry."

Scholle is the pioneer and major global supplier of [bag-in-box](#) and other flexible packaging solutions for food, beverage and industrial products. It is headquartered in Irvine, California, USA. Scholle's packaging business is divided into four global regions: North America, Latin America, Europe/Middle East/Africa and Asia-Pacific.
